\$1.6 trillion productivity gap compared to other industries

The construction industry has failed in its attempt to digitize

Digitalization based on standards

A collaboration platform that allows
all actors to exchange data and
services

A standardized and streamlined platform

A common digital language

Implementation of data templates

Implementation of standards

THE BUSINESS BENEFITS

Sustainable cost savings

Risk reduction

Process automation

Increased efficiency

Better commercial relationships

Better customer experience

A solid and future-proof foundation

Opening businesses to global markets
